

Trade Routes

How has technology made trade easier?

Machinery

E-Commerce

Glossary:

- Country – land that is controlled by a single government.
- Trade – The action of buying and selling goods and services.
- Import – Bring (goods or services) into a country from abroad for sale.
- Export – Send (goods or services) to another country for sale.
- Global – Relating to the whole world.
- Supply chain – Is the amount of something which someone has or which is available to use.
- Primary – Extracting the raw materials (farming, mining, fishing)
- Secondary – Turning raw materials into products (wood to furniture)
- Tertiary – Services are provided to businesses (distribution to retailers)
- Climate – The weather conditions prevailing in an area in general or over a long period.
- Natural resources – materials or substances occurring in nature which can be exploited for economic gain.
- Human resources – set of people who make up the workforce of an organisation.
- Fairtrade – Trade between companies in developed countries and producers in developing countries in which fair prices are paid to the producers.
- Technology – the machinery and equipment used form the application of scientific knowledge.

Geography Spring - Year 6 - What is global trade? (Part 2)

Sticky Knowledge:

- To know that some goods are imported and exported.
- To know the 3 stages of the supply chain: primary, secondary and tertiary.
- To know what globalisation means.
- To know what fair trade is and how this affects costs and working conditions.
- To know how the level of development within a country affects how they trade goods.
