

History Progression

Vision: To teach pupils to love, learn and live as a global citizen in an ever-changing world.

History strap line: to investigate and interpret how innovations have helped change and civilisations through time.

Throughout the History units pupils will learn to:

- Investigate and interpret the past through quality primary and secondary sources,
- Become critical thinkers when analysing sources for possible biases and reputability,
- Understand the importance of using evidence to justify opinions on historical events and civilisations
- Gain **knowledge** of how significant **innovations** have helped shape and change civilisations.
- Explore past civilisations and whether they were just, linking to **equality** for different groups within societies,
- Explore the **legacy** significant historical figures and past civilisations have left on our world,
- Develop their understanding of historical concepts such as similarities and differences, cause and consequence and significance in order to compare periods covered,
- Think about the **legacy** they will leave behind and become history makers of the future.
