

Year 1 - Computing - Just Dance

Glossary:

- **Algorithm** - a clear set of instructions to carry out a task.
- **Sequence** - a set order or pattern for something to follow.
- **Debug** - to fix an error in code.
- **Computer** - Electronic machine that accepts and processes information to produce an output, and then stores the results.
- **Input** - A way of telling the computer what you want it to do.
- **Output** - Information or data that is sent by the computer to an output device such as a printer or speakers.

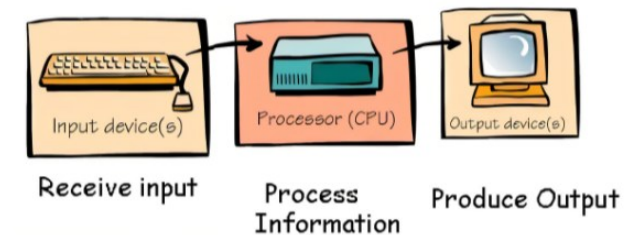

To get dressed in the morning you have to put on each item of clothing in the correct order...

A recipe is a set of steps you follow in order to bake a birthday cake:

What Computers Do

Sticky Knowledge:

- To know that we control computers by giving them instructions.
- To know that an algorithm is a step by step set of instructions.
- To that know a loop repeats a set of code.
